Altronix POE367 Delivers 277VAC Support at Remote Locations

An ideal solution for light poles, parking lots, and other high-voltage installations

POE367

NetWay Spectrum SP4TCW53

Brooklyn, NY (June 18, 2025) – [Altronix](#), the recognized leader in power and data transmission products for the professional security industry, has expanded its power product line with the new **POE367** power supply/charger designed specifically for **277VAC input environments**. The POE367 offers a robust and efficient solution for powering IP devices, integrating with NetWay Spectrum Hardened PoE Switches at remote or industrial locations where high-voltage 277V power is the only option.

The [POE367](#) converts 208–277VAC input into a regulated 54VDC output, delivering up to **360W of continuous power**. With integrated surge protection, LED indicators, and a built-in charger for sealed lead-acid or gel batteries, it ensures dependable operation and backup support in challenging environments.

“The POE367 expands our high-voltage product family and enables integrators to meet power requirements in environments that were previously difficult to service,” said

Ronnie Pennington, Director of Sales for the Americas at Altronix. “Together with our NetWay Spectrum hardened switches, the POE367 provides a robust, field-ready solution for remote deployments in virtually any environment.”

The POE367 integrates seamlessly with Altronix NetWay Spectrum Hardened PoE Switches, delivering power, data, and battery backup for a complete remote IP security solution. Like all Altronix power products, it's backed by a lifetime warranty for long-term peace of mind.

To learn more about the POE367 360W/277V Input Power Supply/Charger Board, visit the [product page](#). For more information on more Altronix hardened switches with 277VAC capabilities, visit <https://www.altronix.com/search/277VAC>.

About Altronix

Altronix Corporation is the leading designer and manufacturer of quality low voltage electronics for video surveillance, security, fire, access control and automation applications that deliver “More than just power”. Altronix corporate headquarters is located in Brooklyn, NY, U.S.A. occupying approximately 200,000 square feet with the latest manufacturing technologies providing the highest levels of quality and reliability. Altronix is an ISO 9001 registered firm. Altronix products are NDAA and TAA compliant and carry a lifetime warranty.
