

Altronix Joins PSA Partner Program as Inaugural Member

Brooklyn, NY (June 8, 2022) – Altronix today announced it has joined the PSA Partner Program (P3) as an inaugural member. PSA (www.psasecurity.com) is the world’s largest consortium of professional systems integrators. The program features three levels of partnership: elite, platinum and PSA approved and Altronix has joined at the Elite P3 level.

“Altronix is pleased to be an Elite Technology Partner, in supporting PSA members through the benefits provided,” said Alan Forman, President, Altronix Corp. “We are looking forward to a mutually beneficial relationship.”

P3 technology partners meet a set of criteria which aligns with PSA’s strategic initiatives and provides the most benefit to members and owners. These strategic alliances allow PSA integrators to pass the benefits along to their end users giving them a competitive edge.

Altronix will provide PSA members with outstanding customer support to ensure they have the specific power and data transmission solutions they need to best serve their customers. Through commitments made by the PSA team and Altronix, the goal

is to create access to more offerings, exclusive training and certification opportunities to bring a higher level of support from each company.

“Altronix was strategically selected for our new program because of its ongoing commitment to PSA, the industry and our network of integrators,” said Matt Barnette, CEO at PSA. “As a global leader in power and data transmission solutions for the professional security industry, Altronix will provide tremendous benefits to PSA integrators that ultimately help us achieve our vision to be the rising tide.”
