Deploy IP Devices over Twisted Pair up to 1000m!

With New Altronix Pace1KRT, Long Range Single Pair Ethernet Adapters

Pace1KRT Kit

Brooklyn, NY (April 27, 2021) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission products for the professional security industry, introduces the newest addition to its portfolio of PACE® Long Range Ethernet Solutions. The [PACE1KRT](#) is a long-range Ethernet adapter kit that transmits data and power via twisted pair (shielded or unshielded). These units provide seamless network transmission over two conductors in hard-to-reach locations such as elevators and other industrial environments.

“This long-range cost-effective solution is ideal for deploying high performance video surveillance cameras and other IP devices for myriad security and facility operations applications with distances up to 1000m,” said Ronnie Pennington, Director of Sales for the Americas at Altronix Corporation.

The new Pace1KRT Long Range Single Pair Ethernet Adapter Kit includes the Pace1KR Receiver and Pace1KT Transceiver. The Pace1KR Receiver is powered via any PoE midspan, such as the Altronix NetWay® series to pass PoE/PoE+ to the Pace1KT transceiver over single pair up to 1000m. The Pace1KRT provides auto detection and protection of legacy non-PoE cameras/devices.

Altronix products are NDAA and TAA compliant and carry a lifetime warranty.
