

FOR IMMEDIATE RELEASE

**Altronix Trove™ Access and Power Integration Solutions
Support More Brands!**

New Additions Provide System Designers and Installers with Even Greater Versatility

New Integrations now include:

Trove™ Access and Power and Integration Solutions

Brooklyn, NY (August 10, 2022) – [Altronix](#) has expanded its popular line of Trove™ Access and Power Integration Solutions to support more brands of access control including **Inner Range**, **Kisi**, and **Suprema** – as well as DIN rail mount solutions **ICT** and **TDSi**.

“Our collaboration with today’s top access control suppliers provides users with more flexibility when designing and installing access control systems,” said Ronnie Pennington, Director of Sales for the Americas, Altronix.

“For added convenience, our free [Trove System Design Tool](#) further simplifies the design process, to configure the specific access and power solution they need.”

Altronix Trove Access and Power and Integration series easily combines Altronix power and accessories with access controllers available from the industry’s leading manufacturers. A variety of backplanes offer a wide range of scalable access and power configurations. These solutions simplify board layout and wire management while reducing costs and saving valuable space.

Altronix products are NDAA and TAA compliant and backed by a lifetime warranty.

For more information on Altronix Trove series, please see our latest brochure:
