**Hartmann Controls Teams Up with Altronix to Offer Pre-Configured
Trove™ Access and Power Integration Kits**

Making Access Control Deployment Easier and More Cost-Efficient

Altronix Trove Pre-Configured Kits for Hartman Controls Access Solutions

Brooklyn, NY (November 10, 2020) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission products for the professional security industry, is further expanding its Trove™ Series with an access and power integration solution exclusively designed to support Hartmann Controls. The pre-configured kits will accommodate up to 8 or 16 doors each and are scalable for large systems.

“These new Trove solutions provide authorized Hartmann Controls dealers with added features and benefits that reduce installation time and labor,” said J.R. Andrews, National Sales Executive, Altronix Corporation. “We are most pleased to collaborate

with Hartmann Controls in combining our technology resources to provide highly efficient access control solutions.”

“Altronix’s reputation for reliability and support is second to none in our industry, and we are excited to be able to offer these fully integrated access solutions to our reseller partners,” said Andy Hartmann, President and Co-Founder of Hartmann Controls.

These new Trove models are pre-configured with Altronix power and accessories to support Hartmann Controls for up to 8 or 16 doors each. For more detailed information, please visit <https://www.hartmann-controls.com/products/protectornet/hardware>.

All Trove solutions simplify board layout and wire management, while providing maximum flexibility and scalability in the design and deployment of the industry’s leading brands of access control. Trove enables installers to easily configure and pretest systems prior to on-site installation, and provides a single point of service and maintenance, while reducing valuable time and labor.
