**New Altronix 2-Port PoE+ Switches Allow the Deployment
of Two-IP Devices Over a Single Category Cable**

Increase security, while reducing time and installation costs

NetWay2ES

NetWay2ESWPN

Brooklyn, NY (December 2, 2021) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission solutions for the professional security industry, continues to expand its industry-leading line of power and data transmission solutions with the release of new 2-Port PoE+ Switches. These latest additions to the NetWay Series provide installers with increased flexibility and efficiency by allowing two IP devices to be deployed over a single CAT6 cable.

“Our new NetWay 2-port switches further exemplify Altronix’s commitment to make IP camera and device deployments easier, faster and more cost-effective,” said Ronnie Pennington, Director of Sales for the Americas, Altronix. “These units save time, labor and material costs by eliminating the need to pull an additional CAT6 run.”

NetWay2ES delivers up to 30W to two IP cameras (60W total output) from any midspan or switch such as Altronix NetWay and NetWay Spectrum series. NetWay2ESWPN is an outdoor version mounted in NEMA 4/4X IP66-11 Rated enclosure.

Both the NetWay2ES and the NetWay2ESWPN are TAA and NDAA compliant, and carry a lifetime warranty.
