**New Altronix Dual Output Power Converter
Provides PoE+ and 12VDC Simultaneously**

Altronix NetWay3012P PoE Adapter/Converter

Brooklyn, NY (August 24, 2021) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission solutions for the professional security industry, continues to expand its industry-leading portfolio of NetWay™ PoE solutions with the release of their new [NetWay3012P](https://www.altronix.com) PoE+ Adapter/Converter. This new device provides 12VDC and PoE/PoE+ (30W combined) to power two devices simultaneously, accommodating PoE cameras and external microphones, control boards, switching equipment and more!

“The NetWay3012P provides installers with more versatility by allowing them to utilize a single structured cable to deploy and power both a PoE device and an analog device together,” said Ronnie Pennington, Director of Sales for the Americas, Altronix. “This reduces labor and material costs when installing multiple devices at a single location.”

NetWay3012P passes PoE+ from any midspan/injector and converts PoE to 12VDC up to 2A with a total of 30W combined. As with all Altronix products, it is TAA and NDAA compliant, and backed by a lifetime warranty.

For more information on Altronix’s extensive line of products, call toll free 1-888-258-7669, e-mail info@altronix.com or visit www.altronix.com.
