**Altronix Expands NetWay™ PoE Series with
802.3bt Midspan/Injectors & Media Converters for High Powered Devices**

New Models Deliver up to 90W per port

Altronix NetWay™ BT Series

Brooklyn, NY (April 7, 2020) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission products for the professional security industry, has expanded its popular NetWay™ Series with the addition of new 802.3bt 4PPoE Managed Midspan/Injectors and Media Converters. Designed specifically to accommodate high-powered 802.3bt compliant devices, the NetWay™ BT Series delivers up to 90W per port. New models are available in single, 4 or 8 port models and include battery charging as well as Altronix LINQ™ Technology to monitor, control, and report power and diagnostics from anywhere over the network.

The NetWay Spectrum line of 802.3bt products are also available to accommodate single/multi-mode fiber or composite cable (copper + fiber) in NEMA4/4X rated outdoor

enclosures that can accommodate batteries for installations requiring back-up.

“These new additions to our 802.3bt (4PPoE) compliant NetWay Series provide a cost-efficient solution for powering the latest high-power illuminators and multi-sensor PTZ cameras, as well as commercial PoE lighting,” said Alan Forman, President, Altronix Corporation. “Our expanded NetWay and NetWay Spectrum portfolio provides system designers and installers with the best possible solution to meet a wide range of installation requirements.”

The Altronix NetWay BT Series provides PoE, PoE+ and 4PPoE up to 90W (802.3bt compliant) power per port and pass data at 10/100/1000 Mbps. Additional features include port status LEDs, auto detection and protection of legacy non-PoE cameras/devices, and a built-in battery charger.

Altronix NetWay products are backed by a lifetime warranty.
