**Altronix Expands Trove™ Access and Power Integration
with S2 Security**

Combines Power and Control, Increasing Profitability

Altronix Power and S2 Security Access Solution

Brooklyn, NY (May 14, 2020) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission products for the professional security industry, introduces a new brand to its portfolio of Trove™ Access and Power Integration Solutions. Altronix now seamlessly integrates its power and sub-assemblies with S2 Security controllers in a streamlined package for systems with up to 14-doors.

“Altronix prides itself on designing and manufacturing solutions that solve real-world installation challenges,” said Alan Forman, President of Altronix Corporation. “We are

pleased to be able support S2 dealers with a new option that streamlines their installations and increases profitability.”

All Trove solutions simplify board layout and wire management, while providing maximum flexibility and scalability in the design and deployment of the industry’s leading brands of access control. Trove enables installers to easily configure and pretest systems prior to on-site installation, and provides a single point of service and maintenance, while reducing valuable time and labor.

Easily configure your Trove with the free system design at https://www.altronix.com/public/system_design_tools/trove2/#SS2

All Altronix products are backed by a lifetime warranty.
