**Altronix Trove™ High Capacity Access Integration Solution
Wins Security Today's 2022 Product of the Year Award**

Increases system capacity while saving valuable space and increasing ROI

Trove3MBK3 Access and Power Integration Solution

Brooklyn, NY (October 13, 2022) – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission solutions for the professional security industry, has been awarded the Security Today 2022 Product of the Year award for their Trove3MBK3 Access and Power Integration Solution. In its 14th year of the independent juried contest, the

Security Today New Product of the Year Award honors the outstanding product development achievements of security equipment manufacturers whose products are particularly noteworthy in their ability to improve security.

Altronix's Trove3MBK3, which was recognized in the Power Supply Technologies category, increases system capacity to accommodate more Mercury access hardware with or without Altronix power from a single enclosure - saving valuable wall space.

[Trove3MBK3](#) features a unique angled bracket system that supports up to 36-doors without power or 24-doors with Altronix power and sub-assemblies for the largest access control installations.

Altronix Trove™ access and power integration solutions provide a removable backplane which simplifies board layout and wire management, allowing installers to easily configure and test systems prior to on-site installation. This reduces overall cost and enhances access control system installation efficiencies. These units include tamper switches, cam lock, along with all mounting hardware and accessories.

For more information on Altronix's extensive line of products, call toll free 1-888-258-7669, e-mail info@altronix.com or visit www.altronix.com.
