## Altronix adds ProdataKey Red™ to Growing Access & Power Integration Portfolio

*New Trove™ Configuration Simplifies Deployment for System Integrators*

**Brooklyn, NY (April 25, 2023)** – [Altronix](https://www.altronix.com), the recognized leader in power and data transmission products for the professional security industry, once again joins forces with ProdataKey (PDK), manufacturer of the leading cloud access control platform, to offer a new access and power integration solution. The [Trove2PD2](#) series allows security professionals to easily integrate Altronix power distribution with PDK Red™ access controllers and accessories.

“We are pleased to have added the new Red™ Controllers in our versatile Trove power integration series,” said Ronnie Pennington, Director of Sales for the Americas at Altronix. “This latest integration combines the best of PDK and Altronix to ultimately streamline access control installs, making it simple for today’s systems integrators.”

Available with or without pre-configured power distribution, the Trove2PD2 series can accommodate up to 24-doors with power in a single enclosure. Removable backplanes

for configuring and testing prior to on-site installation, reduces time and decreases labor costs.

“PDK has a mission to empower our partners through intuitive solutions,” said Brach Bengtzen, Director of Marketing at PDK. “Integrating with the Altronix Trove helps us accomplish this mission by simplifying the installation process and delivering streamlined power distribution for all electrified hardware. The customization capability of the Trove creates a convenient and straightforward access solution for any size of customer.”
